CHALLENGES AND DEVELOPMENT

(Response in 500 characters, including spaces)

This form is intended for professionals experienced in Cyber Security, go straight to the point, with concrete information and showing the added value of your offer. The most concise answers are often the best, so pay particular attention to simplifying your answers.

1. What are the cybersecurity issues that you address (front office, back office, communication...)?

2. How do you present your solution to the CISO of a bank?

3. What is the innovative feature of your solution?

4. What are the competing solutions and how do you differentiate yourself?

5. What is the level of development of your product? Have you got your first clients?

6. What is your business model? Sales model?

7. What are your challenges 6 months down the line?

8. What are the technological prerequisites and the rollouts facilities of your solution?

9. Product presentation web page

10. Product demonstration video: Youtube, Dailymotion, Vimeo... (URL)

11. How did you hear about the price?
